## MEDIC PRIVÉ

Your trusted private family GP. Founded by Dr Suhail Hussain.

## MEDIC PRIVÉ MEMBERSHIP

---

Private GP care for people who want their health managed with time, attention and discretion.

# A WORD FROM MEDIC PRIVÉ'S FOUNDER

I am Dr Suhail Hussain, and I have been a doctor for over 25 years, with most of that time spent as a GP. Over those years, both as a clinician and as a patient and parent, I have seen how modern healthcare can feel rushed, transactional and impersonal.

For me, medicine has always been about relationships. It works best when there is time to talk, to understand what really matters, and to think carefully about the next step rather than simply treating the next item on a list.

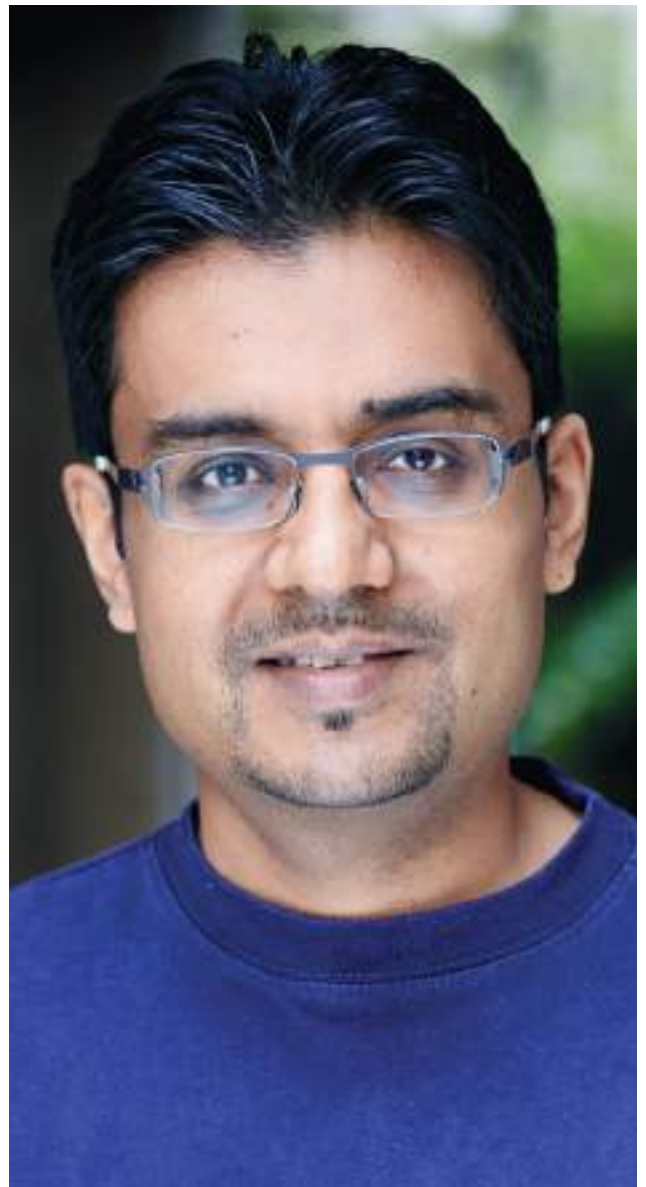

There have been doctors in my family for more than five generations: my mother's grandfather was personal physician to royalty, my grandfather and father were both GPs, and other relatives have devoted their careers to specialist medicine. Medic Privé continues that tradition in a way that fits the lives of today's patients.

I wanted to create a place where people feel they belong and are understood; somewhere you are not only seen when you are ill, but guided over time to protect and improve your health. Think of Medic Privé as the family you did not know you needed until you did: care that is personal and relationship-based, there when you need it most, in the place that matters most – your home.

Dr Suhail Hussain  
**Founder, Medic Privé**

MBChB, MRCP, DRCOG, DFFP, PG Dip Diabetes

## MEMBERSHIPS FOR PEOPLE WHO EXPECT MORE

Medic Privé membership is for individuals and families who want more than brief, symptom-by-symptom appointments. It is for those who prefer a holistic, structured approach in which their doctor has the time to understand their life, guide decisions and anticipate what may be needed next.

Health is treated as something to be actively protected, not simply repaired when things go wrong. That means proactive planning, appropriate screening and timely intervention, alongside calm support when acute problems arise.

## FOR PEOPLE WHO:

---

### LEAD DEMANDING PROFESSIONAL AND PERSONAL LIVES

Executives, entrepreneurs and advisers whose days are heavily scheduled and who want healthcare handled with the same care as everything else.

### LOOK AFTER MORE THAN THEMSELVES

Families who want one private GP to oversee the health of children, partners and often elderly parents, including relatives in the UK while others are abroad.

### VALUE PRIVACY AND CALM

Those who dislike public clinics and disjointed services, and prefer discreet support at home, supported by trusted partners when further tests or treatment are needed.

## YOUR GP, YOUR HOME, YOUR WAY

Medic Privé was not created to replicate grand consulting rooms in central London. It was created to bring medical care to you, at home, wherever that is appropriate. Home visits allow unhurried, personal consultations in the setting that feels most natural to you and your family.

A clinic base is available for services that cannot be delivered at home, such as executive health screens and some investigations. When specialist opinion or hospital-based care is required, Medic Privé works with a small number of consultants and investigative centres selected for their clinical standards and discretion.

## PRIVATE HEALTH REVIEW

---

After joining, you complete a detailed health and lifestyle questionnaire covering existing conditions and what you would like to improve.

## INITIAL ASSESSMENT AND PLAN

---

Your information is reviewed and, where appropriate, a health screen is arranged. Together, you agree priorities and a tailored plan for the months ahead.

## ONGOING SUPPORT

---

You receive secure access to the member portal, curated health information and seminars, and straightforward routes to book appointments or ask questions.

# MEMBERSHIP TIERS

Medic Privé offers four carefully structured tiers, from a practical entry point to a flagship Elite level with advanced screening and wellness options. Each tier is designed to match a different pattern of need and contact, while keeping the same standard of discretion, clinical care and personal attention.
